The 2nd Rajagiri Conference on Economics and Finance (RCEF), organised by Rajagiri Business School (RBS) in association with The Indian Econometric Society (TIES) and University of Economics Ho Chi Minh City (UEH), invites submissions on a broad range of topics in economics and finance. The conference aims to bring academicians, practitioners and policy makers together to exchange high quality research.

Interested scholars are invited to submit **full length papers** on or before 16 October 2020. The submissions will be reviewed by experts on its originality, significance, quality and clarity.

Papers presented in the conference will be considered for publication in special issues of the following journals:

- **Resources Policy**
- **Energy Sources, Part B: Economics, Planning, and Policy**
- **Annals of Operations Research**
- **Economic Research Guardian**

Papers need to meet the set quality criteria and fall in the aim and scope of the special issue. Authors must bear the publication/ submission fees wherever applicable. Only one paper per team of author-co-author/s will be considered for each journal.

In the wake of the COVID-19 pandemic, this edition of the conference will be held virtually through webinars. Details of the platform and panels will be communicated on a later date.
